

We are aiming to hold a zoom call every month to check in on our members.

As we continue to expand we also hope to have lessons on certain topics and also invite guest speakers to talk about these issues.

Since this organization was created mostly on the basis of the medical field many of our lessons will have to do with the medical industry.

- So this is a great way to interact and expand your knowledge if you are interested in the medical field.
- Even if you are not interested in the medical field it is still a great opportunity to expand your knowledge, meet with professionals, and grow your connections.

This will be updated when we have more information
